

ITEC 754 / 654

Do more. Save more. Accelerate productivity & cost-efficiency with the monochrome solution.

Minimise TCO. Maximise productivity and security.

Minimise operation cost

■ Minimise the wait

The ITEC 754/654 reduce unwanted waits with a quick 22-second warm-up and outputs of up to 75 pages per minute.

■ Minimise operating times

Scan enormous amounts of documents quickly at 90 opm for simplex documents and 180 opm for duplex documents with the single-pass duplex scanner.

Minimise running costs and service costs

■ Built to last

The ITEC 754/654 are designed for outstanding durability for a longer life span, and require fewer consumable replacements for parts such as the imaging unit.

Maximise productivity

■ Continuous high-volume productivity

With a maximum paper capacity of 6,650 sheets, the ITEC 754/654 maintain high productivity by reducing paper replacement frequencies – an added plus for offices with high volume outputs.

■ Non-stop operation

No need to stop the ITEC 754/654 to refill paper and toner; they can be done on the fly.

Maximise security

■ Security to match any office

A choice of security settings to match scale and purpose is available, including main unit authentication, Active Directory for medium and large offices, server authentication such as PageScope Enterprise Suite, non-contact IC card authentication and biometric authentication.

Boost output quality. Boost document work efficiency.

Boost output quality with higher image quality

■ Outputs you can be proud of

Real 1,200 dpi resolution reproduces clearer thin lines and small text for creating more convincing documents.

■ Better legibility

The ITEC 754/654 deliver crisp and clear monochrome outputs even from colour originals.

Boost document work efficiency with advanced functions

■ Choose your finish

An array of available automatic finishing is available including 80-page books, three types of folding, stapling, hole punching, cover sheets and more.

■ Choose your media

With a wide range of supported media from 52 g/m² thin to 300 g/m² thick, you can choose the right one to meet your purpose.

■ Prevent scanning errors

Avoid operation errors by easily confirming and adjusting scanned documents on the spot with the real-time preview function.

■ ... and printing errors

Print setting errors can also be avoided in advance with the detailed and accurate Print Preview function.

Colour ITEC functions & operability. For greater affinity with colour ITEC.

■ Operate like the colour ITECs

The ITEC 754/654 share the same firmware as the colour ITEC C754 series/C554 series. Uniform functions and operability make operations smooth and stress-free.

■ Optimal device placement

Save output costs by placing colour and monochrome output devices in the optimal locations and centrally managing all document outputs with ITEC's management solutions.

■ Ready to operate for anyone

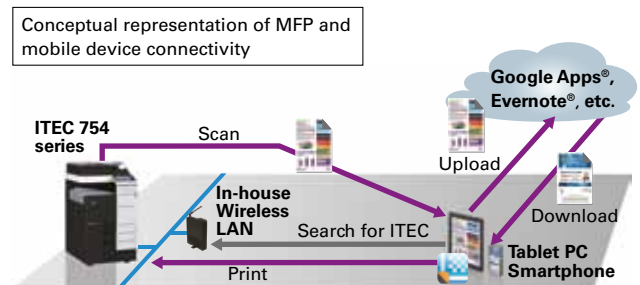

The ITEC 754/654 adopt the intuitive and easy INFO-Palette design smart user interface, providing seamless operation even from PCs, smartphones or tablets for a consistent user experience in any business situation.

Aggregate required information sources in a palette

■ Connect with smartphones

Use the PageScope Mobile for iPhone/iPad/Android*1 apps to wirelessly connect with and fully leverage documents from mobile devices such as smartphones.

*1 Printable file formats: PDF, XPS, monochrome TIFF, JPEG, OOXML formats (pptx, docx, xlsx)

■ Manage all devices from a single location

Centrally manage the ITEC 754/654 and other colour and monochrome output devices from a single server with ITEC Print Director and ITEC Sentry.

Service Management

Cost Management

Saving more energy and resources. Using more recycled materials.

■ Designed for thorough energy savings

The ITEC 754 and ITEC 654 achieve class-leading TEC values of 5.15 kWh and 4.93 kW/h respectively.

* As of January 2013

■ See the toner and paper savings

Check your level of eco-contribution with the Eco Meter, which displays toner and paper savings in 10 steps. Cumulative power usage is also displayed.

Eco Info (Eco Indicator) for toner/paper savings

■ Designed for paper saving from the start

The ITEC 754/654 promote paper saving with a printer driver that sets duplex printing as the default setting.

■ Made from more eco-conscious materials

To minimise environmental impact, recycled materials, such as recycled PET/PC made from an advanced chemical processing technology, are effectively used for the ITEC 754/654.

● PC+PET (recycled) ● PC+ABS (recycled)

Ecology & Environment

ITEC products are designed with the environment in mind.

- RoHS Compliance
- WEEE Compliance
- Eco-friendly Toners
- Production at ISO Certified Factories

⚠ Requirements for safe use

- Please read and follow the instruction manual to ensure safe operation.
- Only operate using appropriate power supply and voltage.
- Connecting the earth wire to an inappropriate place may cause explosion or electric shock. Please connect accordingly.
